

SorbAll Ceiling Clouds

With a combination of great appearance, superior acoustical performance, and endless design possibilities, our SorbAll Acoustical Cloud Panels make the perfect solution for many interior reverberant noise problems.

SorbAll Acoustical Clouds are the perfect solution for reverberation issues often found in Worship Facilities, Restaurants, Office Environments, Home Theaters, Listening Rooms, Conference Rooms, Classrooms, and Auditoriums.

SorbAll Acoustical Cloud Panels are an attractive, and unique solution to reverberant noise problems at the ceiling level.

SorbAll Cloud Panels are constructed with 6-7 PCF fiberglass boards faced in fabrics from the FR 701 Collection from Guilford of Maine or any factory-approved, customer-selected fabric.

Perfect for spaces where ceilings are too low for vertical baffle installations, cloud panels perform a similar acoustical function without sprinkler or lighting interference. Cloud panels can also be backlit with low voltage lighting for a dramatic effect.

Panels are available in sizes up to 4' x 10'. Also available in custom shapes.

SorbAll Acoustical Clouds

Description

Horizontally suspended acoustical cloud panel, wrapped in fabric.

Composition

6-7 PCF fiberglass core
Chemically hardened edges
Suspension hardware on back of panel
Fabric faced with factory in-stock fabric by Guilford of Maine, or factory-approved customer-selected material

Acoustical Performance

NRC:*

1" thick = 0.80

2" thick = 1.00

(This panel is available in 1/2", 3/4", 1", 2", 3" and 4" thicknesses)

*Note: Absorption data for (flush) mounting.
Suspension of panels will increase sound absorption coefficients.

Edges Fabric or vinyl

Fire Test Data Class A
per ASTM E84 Flame
Spread - 25 or less

Applications

- Large interior ceiling applications where superior acoustical performance is required.
- Multi-Purpose Rooms
- Office Spaces with high ceilings
- Large Reverberant Rooms with high ceilings
- Restaurants with exposed roof structure
- Gymnasiums

Mounting

To be mounted following manufacturer's recommendations. See *Product Installation Guide*.
