

Our **SorbAll EcoLine** of products are the perfect economical solution to reverberant noise problems where budget is a concern.

SorbAll EcoLine Baffles, Banners, and Wall Panels are extremely versatile and can be mounted virtually anywhere. Mount them on the wall, space them out through the ceiling, or drape them to create a dramatic design effect. With a myriad of sizes, mounting options, and color options the SorbAll EcoLine of products are one of our most popular offerings.

Available in a wide selection of colors. Please see **Color charts**.

**SorbAll EcoLine** products are an economical solution to reverberant noise problems often found in gymnasiums, restaurants, concert halls, arenas, cafeterias, and multi-purpose rooms. Used to reduce overall noise and reverberation levels, these acoustical materials can be mounted in open ceilings or on walls.

**SorbAll EcoLine** products are constructed with a 3 PCF fiberglass core which is encased in either PVC or a Nylon Ripstop material. For ease of installation, the EcoLine Wall Panels and Ceiling Baffles have grommets along the edge, and our EcoLine Banners have a mounting plate attached to the ends.
